

$$P: \text{Precision} = \frac{TP}{TP + FP} = \frac{4}{4 + 2} = 0.666$$

$$R: \text{Recall} = \frac{TP}{TP + FN} = \frac{4}{4 + 2} = 0.666$$

$$\text{Sensitivity} = \frac{TP}{P} = \frac{4}{6} = 0.666$$

$$\text{Specificity} = \frac{TN}{N} = \frac{2}{4} = \frac{1}{2} = 0.5$$
